

10 years of experience in the service of

FERTILIZER INTERNATIONAL TRADING

For 10 years now, PARMADIS trades, transports, packages and delivers quality fertilizers to better respond to the needs of its customers around the globe.

An international trading company specializing in fertilizers, incorporated in 2005, PARMADIS (Partners Maghreb Distribution) has continually grown and has internationally expanded, so much so that it has become a leader in the export of packaged and customized fertilizers.

From trading to delivery, passing through fertilizer packaging, PARMADIS masters every step in the chain which enables its customers to purchase fertilizers.

Responsiveness, reliability and listening to the client are at the heart of our dynamism.

Based in Casablanca, Morocco, PARMADIS is at the heart of an international trade covering over 35 countries.

Intended to compensate for a possible deficiency of soil in mineral elements and to provide plants with nutritional supplements necessary for their good growth, fertilizers increase crop yield and quality.

PARMADIS proposes a wide range of chemical fertilizers which include 4 ranges based on 3 main nutrients (phosphate, potassium and nitrogen):

Phosphate fertilizers

The phosphorus (P) reinforces the resistance of plants and contributes to root development.

- MAP
- TSP
- DAP

Nitrogen fertilizers

The nitrogen (N) contributes to vegetative development of all above-ground plant surfaces.

- Pellets urea
- Pearls urea

Potassium fertilizers

The potassium (K) contributes to promote flowering and fruit development.

- Potassium Chloride
- Potassium Sulfate

NPK Complex fertilizers

- NPK COMPLEXE 15 – 15 – 15
- NPK COMPLEXE 17 – 17 – 17
- Any other NPK complex fertilizer may be made upon request.
